

With 12 years of successful business in the market, **MagicPharma** has an extensive experience in medical and pharmaceutical products, namely in Orthopedics - post-operative textile products and nano functional textiles.

MagicPharma is also expert in marketing & distribution, granting the bigger retail clients in Portugal (Sonae), and is a qualified supplier of the Portuguese Government, and also for to the National Pharmacies Chain (ANF).

Despite an extensive knowledge and qualifications of our team, we attend constantly through our partners several technical courses to grant the best know-how, towards to better advise our customers.

In the scope of our division of Import/Export line, MagicPharma keep developing an international strategic expanding partnership with several qualified reputable and well-known producers, together with a network of Medical agents for the distribution of our products.

Magicpharama has currently more than 1000 clients worldwide. Notwithstanding, our main exportations areas are in Europe, mainly Spain, Asia - China, Africa – Angola and Mozambique, and in America - Brasil.

Our medical devices production is licensed by INFARMED - Government agency accountable to the Health Ministry, that evaluates, authorizes, regulates and controls human medicines as well as health products, namely, medical devices and cosmetics for the protection of Public Health.

With the Pandemic Cov19, we have strength our commercial relations with some Asian producers, always granting the best product quality, but also throughout all the supply process.
